

BUILDING PARTNERSHIP FOR AIR TRAFFIC MANAGEMENT

GLOBAL EXPERTISE IN AIR TRAFFIC CONTROL

Atech, an Embraer Group company, is a global reference in air traffic control, with more than 40 years of proven expertise in designing, integrating, and deploying advanced ATC solutions. With a strong presence across strategic regions worldwide, our systems play a key role in shaping safer skies and enabling more efficient, reliable, and sustainable airspace operations.

+40 YEARS
Building the future of the sky

EXPERTISE & CAPABILITIES

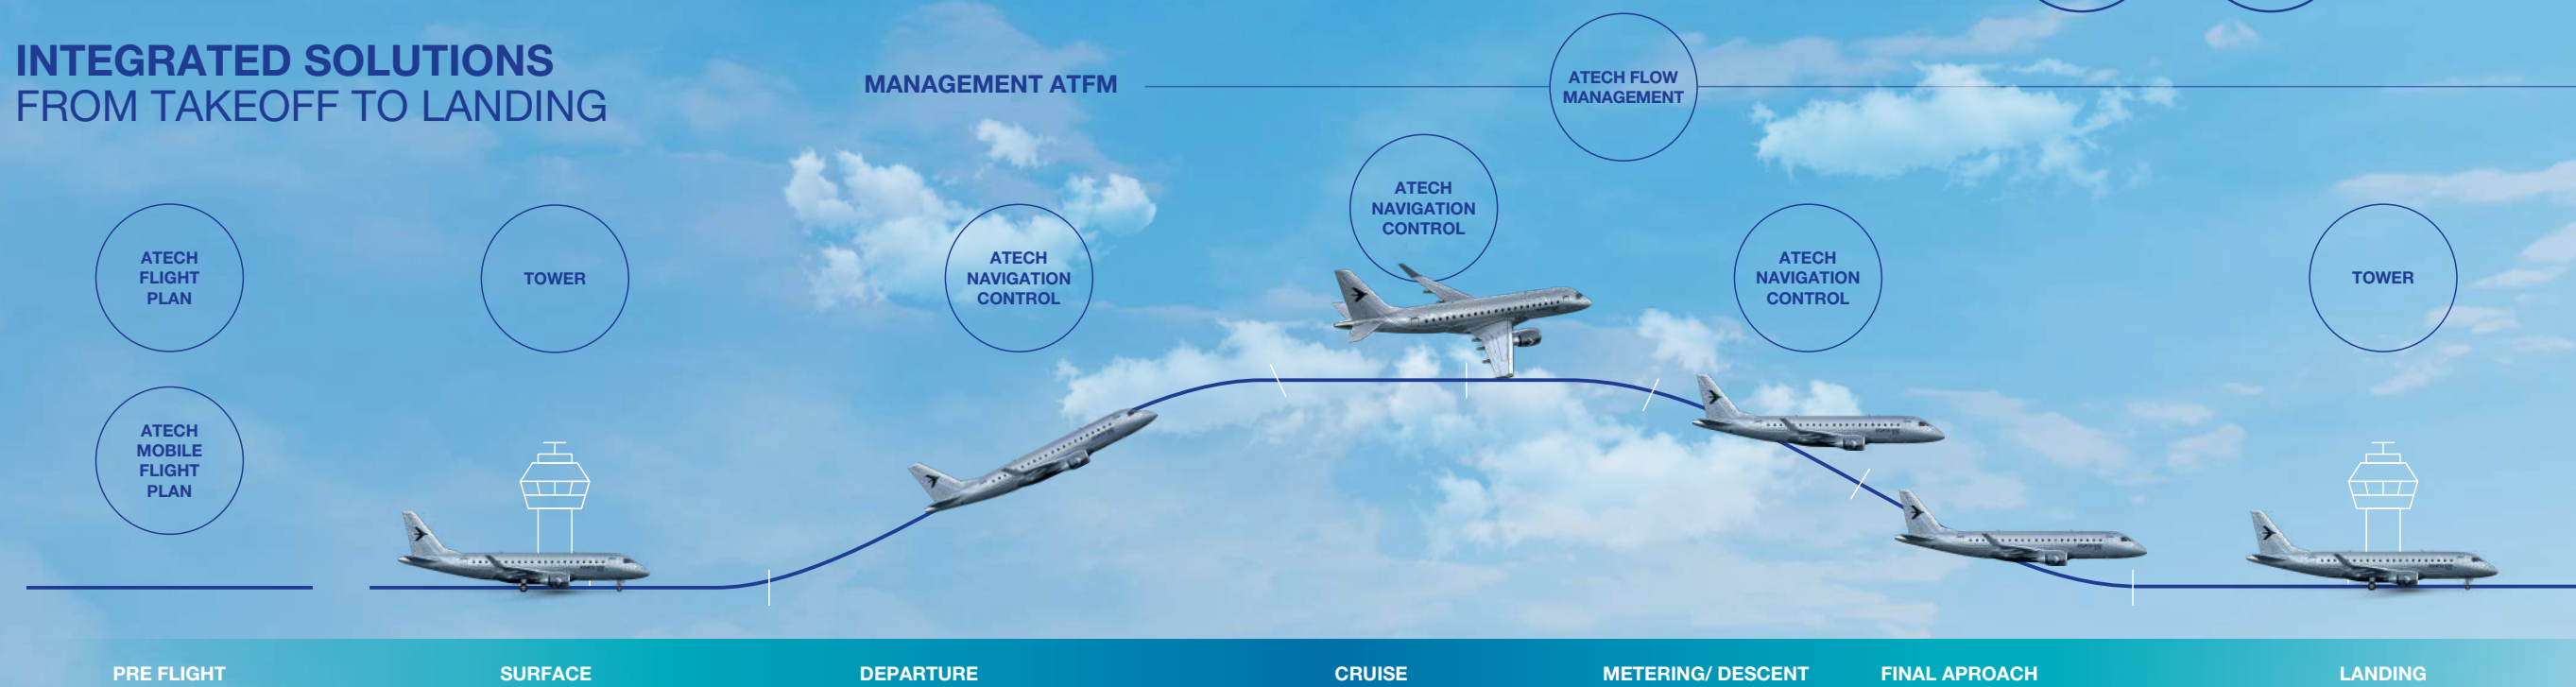

-  AIR TRAFFIC CONTROL SYSTEMS (ATC)
-  AIR TRAFFIC FLOW MANAGEMENT (ATFM)
-  ADVANCED AIR MOBILITY (eVTOL & DRONES)
-  ATC SIMULATION & TRAINING
-  MULTI-SENSOR INTEGRATION

FULL-CYCLE AIR TRAFFIC CONTROL

Our gate-to-gate approach ensures control and visibility at every stage of the journey.

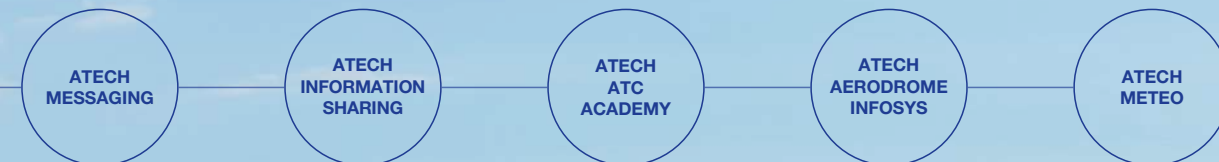

INTEGRATED SOLUTIONS FROM TAKEOFF TO LANDING

Atech's portfolio covers every stage of the flight, from planning and flow management to aerodrome systems and information sharing, providing seamless operations and real-time control for civil and military airspace.
